ABILITIES

GAME DESIGN & DOCS

- Mechanics & moveset
- FTUE & tutorials
- Feature design
- Systems & parameter tuning
- Balancing & progression
- Game economy basics
- One-pagers & GDD

UX & RESEARCH

- Screen flows
- Usability & A/B testing
- Competitor benchmark
- Workshops
- Team leadership
- Cross-team communication

Eduard Arajol

Game Designer & UX Designer

I design mechanics, onboarding and flows for games, bringing a UX lens to game design: every mechanic starts from what the player should feel, and every decision is documented so the team can build it. Before games, I spent almost seven years designing in-car interfaces for SEAT and CUPRA.

EXPERIENCE

Game & UX Designer · Freelance

MAR 2026 – PRESENT

F2P casual game for mobile UNDER NDA

- Designed **new features** from scratch, each in its own **one-pager**, aligned with the game pillars and with its risks flagged.
- **Benchmarked** and played games of the same genre. The findings shaped the **FTUE** and its **progression**, which I mapped in **spreadsheet** tables.
- Scripted the **tutorials** step by step, **balancing** their difficulty and pacing, and explained every proposal through **screen flows** in Figma and Miro.
- Reviewed the **game economy** documentation (currencies, prices and rewards) so new features fit the existing balance.
- Reworked existing features for clarity, proposed **new game modes** and documented all approved work in the **GDD**.

F2P racing game for PC & mobile UNDER NDA

- Wrote the **core mechanics specs** and **designed the systems behind them**, with parameter tables in **Google Sheets** used to tune and **balance** the Godot prototype, including input forgiveness.
- **Benchmarked** arcade racers and F2P games with a template I designed to capture key data and annotated references from each game.
- Designed the **HUD**, the **leaderboard**, **screen flows**, **settings** and other game screens, with layouts that work on both PC and mobile.
- Organised and facilitated design **workshops** that led to new feature proposals.

Lead UX Designer · SEAT & CUPRA In-car HMI

FEB 2018 – NOV 2024

Lead UX Designer · Bertrandt AG	Jun 2021 – Nov 2024
UI/UX Designer · Arvato SCS	Jan 2021 – Jun 2021
UI/UX Designer & Software Architect · Altran	Feb 2018 – Jan 2021

- **Led the UX team** as its technical and coordination reference, and reviewed, refined and delivered many of the UX proposals to the other teams.
- Held **one-to-ones** with every designer on my UX team, and stayed available to unblock and support them.
- Decided **what lives at first level while driving**, and designed brand-native **Home, App Grid and Navigation** for CUPRA.
- Ran **benchmarks** and driver research, prototyped concepts and **tested them with users**.
- Worked with development, QA, the UI team and project management in **Agile/Scrum**, and aligned solutions across VW Group brands, **including in Germany**.

Earlier: Graphic Designer at Grupo Mediapro (LaLiga World Challenge, 2016) and Senfort (2015–2016).

EDUCATION

Game Design Bootcamp · Level UP Game Dev Hub	2025 – 2026
Master in Illustration, Motion Graphics & 3D · IDEP Barcelona (UAO)	2016 – 2017
Bachelor in Graphic Design · EINA, Centre Universitari de Disseny i Art (UAB)	2012 – 2016

TOOLS

Figma UI/UX · Prototyping	**Miro** Workshops · Flows	**Google Docs & Sheets** GDD · Specs	**Jira** Feature tracking
