## Game Designer & UX Designer

Six years designing in-car interfaces for SEAT and CUPRA, now designing mechanics, onboarding and flows for games. I bring a UX lens to game design: every mechanic starts from what the player should feel, and every decision is documented so the team can build it.

## EXPERIENCE

### Game & UX Designer · Freelance
MAR 2026 – PRESENT

**Client game studio** · Under NDA · F2P casual mobile

- Designed **new features and game modes** from the game pillars, and reworked existing ones for clarity.
- Wrote the **FTUE** script, **screen flows** and **one-pagers**, then integrated approved work into the **GDD**.

**Racing project** · Arcade racer · F2P · PC & mobile · with the game director

- Wrote the **core mechanics spec** with tunable parameters; the Godot prototype was built from it.
- Designed the **HUD, screen flow, leaderboard and settings**; ran **benchmarks** and a design **workshop**.

### Lead UX Designer · SEAT & CUPRA In-car HMI
FEB 2018 – NOV 2024

| **Lead UX Designer** · Bertrandt AG | | Jun 2021 – Nov 2024 |
| **UI/UX Designer** · Arvato SCS | | Jan 2021 – Jun 2021 |
| **UI/UX Designer & Software Architect** · Altran | | Feb 2018 – Jan 2021 |

- **Led the UX team:** workflows, design reviews and handoff to development.
- Decided **what lives at first level while driving**, and designed brand-native **Home, App Grid and Navigation** for CUPRA.
- Ran **benchmarks** and driver research; prototyped concepts and **tested them with users**.
- Worked with development, QA and product in **Agile/Scrum**, and aligned solutions across VW Group brands, **including in Germany**.

**Earlier:** Graphic Designer at Grupo Mediapro (LaLiga World Challenge, 2016) and Senfort (2015–2016).
