ABILITIES

GAME DESIGN & DOCS

Mechanics & moveset · FTUE · Tutorials · Cross-platform controls · Feature design · Parameter specs & tuning · One-pagers & GDD

UX & RESEARCH

Screen flows · Usability & A/B testing · Competitor benchmark · Workshops · Team leadership · Cross-team communication

Eduard Arajol

Game Designer & UX Designer

I design mechanics, onboarding and flows for games, bringing a UX lens to game design: every mechanic starts from what the player should feel, and every decision is documented so the team can build it. Before games, I spent almost seven years designing in-car interfaces for SEAT and CUPRA.

EXPERIENCE

Game & UX Designer · Freelance
MAR 2026 – PRESENT

Client game studio · Under NDA · F2P casual mobile

- Designed **new features** from scratch, each in its own **one-pager**, scored against the game pillars with its risks flagged.
- **Benchmarked** games of the same genre on device; the findings shaped the **FTUE** and the references of every feature.
- Scripted the **tutorials** step by step and explained every proposal through **screen flows** in Figma and Miro.
- Reworked existing features for clarity, proposed **new game modes** and kept the **GDD** as the team's single reference.

Racing project · Arcade racer · F2P · PC & mobile · with the game director

- Wrote the **core mechanics spec** (camera, launch, drift, collisions) with tunable parameters; the Godot prototype was built from it.
- **Benchmarked** arcade racers and F2P games with a template I designed, and compared six HUDs to define ours.
- Designed the **HUD, screen flow, leaderboard and settings**, with a home screen adapted to thumb reach on mobile.
- Facilitated a **workshop** with the game director to define competition, and proposed a risk-free **training mode**.

Lead UX Designer · SEAT & CUPRA In-car HMI
FEB 2018 – NOV 2024

Lead UX Designer · Bertrandt AG	Jun 2021 – Nov 2024
UI/UX Designer · Arvato SCS	Jan 2021 – Jun 2021
UI/UX Designer & Software Architect · Altran	Feb 2018 – Jan 2021

- **Led the UX team:** workflows, design reviews and handoff to development.
- Held **one-to-ones** with every designer to review what was going well, what could improve and how they were feeling, and stayed available to unblock and support the team.
- Decided **what lives at first level while driving**, and designed brand-native **Home, App Grid and Navigation** for CUPRA.
- Ran **benchmarks** and driver research; prototyped concepts and **tested them with users**.
- Worked with development, QA and product in **Agile/Scrum**, and aligned solutions across VW Group brands, **including in Germany**.

Earlier: Graphic Designer at Grupo Mediapro (LaLiga World Challenge, 2016) and Senfort (2015–2016).

EDUCATION

Game Design Bootcamp · Level UP Game Dev Hub	2025 – 2026
Master's in Illustration, Motion Graphics & 3D · IDEP Barcelona (UAO)	2016 – 2017
Bachelor's in Graphic Design · EINA, Centre Universitari de Disseny i Art (UAB)	2012 – 2016

TOOLS

Figma UI/UX · Prototyping	**Miro** Workshops · Flows	**Google Docs · Sheets** GDD · Specs	**Jira** Issue tracking
Confluence Documentation	**UserZoom** User testing	**Photoshop** Photo editing	**Illustrator** Vector design
